EXPERIENCE

Senior Staff Engineer | AI Product Lead

Nagarro  12/2023 - Present  Bengaluru

Project: eCOA Platform | Healthcare / Clinical Trials

- Owned **eCOA product strategy**, integrating patient insights to increase compliance from **75% to 95%** through evidence-based product improvements.
- Embedded **PCS and ITI** into discovery, translating patient friction into **12+ product improvements** across outcome collection and experience.
- Accelerated **clinical site activation ~50%**, reducing timelines from 8 to **12 weeks to 4-6 weeks** through pre-validated library-based configuration.
- Leveraged **600+ assessments and 2,500+ eCOA forms**, reducing implementation and system setup time by **up to 75%** versus paper.
- Consolidated **eCOA and IRT testing** into unified **UAT**, reducing clinical testing effort **~50%** and saving **400-600 FTE hours** per study.
- Partnered with **clinical, regulatory and site operations** across **16 countries**, eliminating redundant data entry and saving **~1,300 FTE hours** program-wide.

Staff Engineer | Technical Product Lead

Nagarro  07/2022 - 12/2023  Bengaluru

Project: Banking | AWS Cloud Migration & Data Platform Modernisation

- Directed **product roadmap and backlog** for migrating **5-10 TB** across **50+ sources and 500+ datasets** to AWS.
- Drove **requirements discovery, prioritisation and acceptance criteria** across **6 stakeholder functions** spanning business, engineering, security and QA.
- Defined **Oracle, SQL Server, ETL and file-based migration** roadmap, improving data retrieval **30%** through AWS S3, Glue and Redshift.
- Streamlined **project delivery 20%** and **release cycles 25%**, improving delivery efficiency **15%** through Agile backlog and migration-wave optimisation.
- Strengthened **delivery governance**, reducing stakeholder escalations **40%**, identifying **15 initiatives**, and advancing **3 to MVP** through leadership workshops.

Associate | Engineering Product Lead

Cognizant  06/2021 - 07/2022  Pune

- Led a **7-member engineering team**, owning **system design** and translating business requirements into technical specifications, architecture and data flows.
- Governed **RPA, API and BPM integrations**, standardising architecture templates, coordinating releases and mentoring engineers to reduce design rework by **25%**.

Enterprise Automation Specialist

Accenture  12/2019 - 06/2021  Pune

- Architected **retail banking loan automation** using **UiPath, Python, IBM BPM and Oracle EBS**, reducing turnaround time **98%** to ~5 minutes.
- Scaled **10,000+ applications**, cutting cost-to-serve **40-85%**, improving quality **~90%**, and increasing underwriter throughput **3-4x**.

Senior Automation Engineer

Infosys  11/2016 - 12/2019  Pune

- Engineered **UiPath, Python and Oracle EBS API** automation, saving **~30 hours weekly**, cutting costs **40%**, and accelerating cycles **50-60%**.

AWARDS

Excellence Award | Nagarro | 2023

PROJECTS

CasAI | AI Product Management Capstone

- Designed an AI-powered home-services MVP with no-show prediction, backup matching and Continuity Memory, addressing service reliability and NRI monitoring.
- Built the product end-to-end with Supabase, PostgreSQL and backend workflows, implementing worker verification, database security and 88 automated tests.

AI Demand Forecasting | Product Strategy Case Study

- Designed an explainable AI forecasting solution across 5 grocery banners, targeting 3-10% higher on-shelf availability and up to 10% forecast accuracy improvement.
- Structured an Alpha → Beta → GA rollout with explainable recommendations, bounded human overrides, validation hypotheses and frontline adoption safeguards.

Hike Relaunch | Product Hackathon

- Analysed 58 WhatsApp reviews, identifying 9 recurring friction themes and prioritising opportunities through structured product discovery and RICE evaluation.
- Developed a complete PRD, 3-phase roadmap, AARRR funnel and GTM strategy, linking user insights to launch and validation metrics.

SUMMARY

Technical Product Manager with 10+ years of experience spanning product strategy, technical programme management, automation, system design and AI product development. Skilled in product discovery, roadmapping, PRDs, Agile delivery, stakeholder management and technical requirements, with hands-on exposure to RAG, LLMs, Agentic AI, AWS, Python, SQL, APIs, Jira and Azure DevOps. Targeting Technical Product Manager, Technical Programme Manager and AI Product Manager roles.

EDUCATION

M.Tech. - Power Engineering

Jadavpur University | 2014 - 2016

B.Tech. - Electrical Engineering

Jalpaiguri Govt Engineering College | 2009 - 2013

IBM Prodegree AI Product Management Certification Programme

Imarticus School of Finance & Business | 2026

CERTIFICATIONS

IBM Product Management for Building AI Products

IBM Generative AI Skills for Product Managers

IBM Foundation Models and Generative AI Platforms

IBM Prompt Engineering for Everyone

Strategy and Plan for Product Managers

Certificate of Completion: Claude 101

SKILLS

Product Management & Strategy

Product Strategy, Product Management, Product Discovery, Roadmapping, Product Vision, PRDs, Requirements, User Stories, Backlog Management, Prioritisation, Product Lifecycle Management

AI & Machine Learning

Artificial Intelligence (AI), AI Product Management, Generative AI, RAG Pipeline Design, LLM Integration, Agentic AI, AI Engine Architecture, Foundation Models, Prompt Engineering, AI Model Quality Validation, MCP Server Architecture, AI Workflow Design

Technical Product & Systems

Technical Product Management, Programme Management, System Design, Solution Architecture, REST APIs, Microservices, Event-Driven Architecture, Kafka, Cloud, Data Platforms, API Integration

Programme & Delivery Management

Programme Management, Agile Delivery, Scrum, Release Management, Stakeholder Management, Cross-Functional Leadership, Delivery Planning, Migration Planning, Risk Management, UAT, QA Testing

Cloud, Data & Engineering

AWS, Amazon S3, AWS Glue, Amazon Redshift, Azure DevOps, Azure Health Data Services, SQL, Python, Java, JavaScript/TypeScript, Git, Oracle/SQL Server

GTM, Analytics & Product Growth

GTM Strategy, Product Launch, Pilot Testing, A/B Testing, MVP Development, 0-to-1 Development, Product-Market Fit, Customer Discovery, User Research, Product Analytics, KPI Definition
